

How do I create an Arbiter Student Registration account?

How do I create an Arbiter Student Registration account?

When creating your Arbiter Student Registration account, you will continue using the same login credentials every time you need to register your child for a new program.

Do not create duplicate accounts.

For example, if one parent creates the initial account, the other parent should not create a separate account for the same child. Maintaining a single account ensures all registration history and documentation remain organized and accessible in one place.

1. *Open* a web browser and go to www.arbiter.io.

2. Click Login.

3. Click For Families/Students.

4. Click **If you don't have an account, sign up.**
